

Designers & Inventors

CONTEXT

There have been many people in history that have changed the world in which we live. Not always for the better. What impact have these people and their inventions had upon our world?

Some are very well known, some not at all.

HI is mainly concerned with why we create. Why we innovate.

What are the consequences of these creations and inventions?

TASK

You will be given a famous (or not so famous) inventor or designer.

Your task is to produce an informational web site about this person. Choose the most influential designs or inventions to highlight in your site if there are many.

You need to pay close attention to the design and layout of your site.

ALL written work must be your own.

Minimum Requirements:

- Website created on iWeb.
- A picture of your inventor/designer
- A **short** biography
- Pictures of his/her most influential design(s) and a description.
- Describe why this design was made. (*What was the need that inspired it? What was the problem that it solved?*)
- Describe the impact this design/invention had.
- What is your personal opinion?
