

Assessment Criteria-Year 7. Solutions Presentation

Criteria B: Concepts

Demonstrate an understanding of **global awareness** including respect, empathy and understanding of other cultures and societies.

Demonstrate knowledge and understanding of the concept of **change** and it may be viewed as positive or negative based upon people's perspectives.

Criteria D: Organization and Presentation.

Organize and present information in a logically sequenced, informative and engaging manner, using appropriate techniques.

Level /10	Concepts	Presentation and Organization
9-10	<p>Application of the concepts of global awareness and change are appropriate and sophisticated.</p> <p>Our solution demonstrates an excellent awareness and understanding of the needs of people in the Amazon and we effectively explain how their lives will be impacted.</p> <p>Our solution is completely realistic and well considered</p>	<p>Our presentation is a well-structured and logically sequenced piece of work, which is both informative and entertaining.</p> <p>The presentation selected is always relevant to the solution.</p> <p>The planning was excellent, well considered and highly comprehensive. All aspects of the project were well planned and then realized.</p> <p>Our work was presented at an excellent standard.</p>
7-8	<p>Application of the concepts of global awareness and change are appropriate and show some depth</p> <p>Our solution demonstrates a very good awareness and understanding of the needs of people in the Amazon and we explain how their lives will change.</p> <p>Our solution is realistic and well considered</p>	<p>Our presentation is a well-structured and logically sequenced piece of work, which is both informative and entertaining.</p> <p>The presentation selected is relevant to the solution.</p> <p>The planning was very well thought through and comprehensive. All aspects of the project were well planned and then realized.</p> <p>Our work was presented at a high standard.</p>
5-6	<p>Application of the concepts of global awareness and change are appropriate but are somewhat superficial.</p> <p>Our solution demonstrates an awareness and understanding of the needs of people in the Amazon and how their lives will change.</p> <p>Our solution is plausible and well considered</p>	<p>Our presentation shows structure and is a satisfactorily logical piece of work. It is informative and engaging for the audience.</p> <p>The presentation selected is mostly relevant to the solution.</p> <p>The planning was considered and reasonably comprehensive. Most aspects of the project were well planned and then realized.</p> <p>Our work was presented to a satisfactory standard.</p>

3-4	<p>Application of the concepts of global awareness and change is not always appropriate.</p> <p>Our solution demonstrates a basic awareness and understanding of the needs of people in the Amazon and how their lives will change.</p> <p>Our solution is plausible but not fully thought through.</p>	<p>Our presentation shows some structure and is an occasionally logical piece of work. It is reasonably informative and engaging for the audience.</p> <p>The presentation selected is occasionally relevant to the solution.</p> <p>The planning was satisfactorily thought through and somewhat comprehensive. Some aspects of the project were well planned then realized.</p> <p>Our work was presented to a barely satisfactory standard.</p>
1-2	<p>Application of the concepts of global awareness and change is inappropriate.</p> <p>Our solution demonstrates very little awareness and understanding of the needs of people in the Amazon and how their lives will change.</p> <p>Our solution is implausible and poorly thought through.</p>	<p>Our presentation shows little structure and is not a satisfactorily logical piece of work. It is not informative and fails to engage the audience.</p> <p>The presentation selected is irrelevant to the solution.</p> <p>The planning was un-satisfactory and lacked detail. Few aspects of the project were planned then realized.</p> <p>Our work was presented to an unsatisfactory standard.</p>
